3417 Race Street, Philadelphia, PA 19104

PROFILE

My goal is to work closely with developers on evolving products, turning complex problems into thoughtful, practical experiences. I'm especially motivated by teams with clear goals, open communication, and a shared desire to create work that makes a meaningful difference for the people who use it.

PORTFOLIO

Includes case studies on coded websites, coop experiences and other class projects.

EDUCATION

UI UX Major and Entrepreneurship Minor | Undergraduate at Drexel University, PA
GPA: 3.89, Expected Graduation: 2027

REFERENCES

Rob Gougher | Supervisor at OPEX: rgouger@opex.com
Dennis Noble | Supervisor at SEPTA: dnoble@septa.org

SKILLS AND QUALIFICATIONS

- Software:
  - Microsoft Office, Google Drive
  - Adobe Photoshop, Illustrator, Bridge, After Affects, Audition, and Premiere Pro
  - Figma, WordPress
  - GitHub and VS Code
  - HTML, CSS, JS, PHP, and beginner C++
  - Articulate Story Line and Rise 360
  - Jira, Plastic, Confluence
  - Unreal Engine 5, UMG
- UI/UX Design Skills:
  - Journey Mapping + Affinity Mapping
  - Competitor Analysis
  - Wire Frames + Task Flow
  - Quantitative Survey + Qualitative Interviews
  - Design Theories and Principles
  - User Testing
  - Micro Interaction Design
  - Project Managemet

EXPERIENCE

OPEX | Cinnaminson, New Jersey
Warehouse Automation Design Intern, March–September 2026

- Sole UX designer on an HMI development team, leading research, interaction design, prototyping, and validation for the Infinity virtual warehouse system.
- Conducted 25+ user interviews, usability tests, and validation sessions, translating findings into design iterations, functional requirements, and development documentation.
- Self-taught Unreal Engine 5, UMG, Blueprint, and foundational C++ to build functional prototypes and reusable components bridging Figma designs and implementation.
- Led UX for two major workflows, designing complex navigation, version comparison, timeline controls, and recording export through iterative testing.
- Established an accessible HMI color system, centralized Figma design library, and reusable UI components to improve consistency and dev efficiency.

Teneo | Dublin, Ireland
Design Team Intern, April 2025 - August 2025

- Assisted UX team with research and led three user testing sessions. Built out professional wireframes and low fidelity prototypes.
- Conducted UX audits on numerous sites and feeds.
- Conducted competitor social media research on Instagram and LinkedIn.

SEPTA | Philadelphia, PA
Multimedia Designer, April 2024 – September 2024

- Designed and built five e-learning modules and two proofs of concept, contributing to 10+ additional projects.
- Within e-learning modules, assisted with graphic animation, iconography (creating over 250 buttons, with 15 custom designs), UI flow for interactive knowledge quizzes, and assisted with page layout.
- Filmed and edited five 15-minute instructional videos, handling professional equipment, green-screen removal, B-roll, and audio cleanup.
- Developed custom video-buffer animations to enhance instructional videos and e-learning experiences.
